Chastota zarflari — Ingliz tili grammatikasi

always • usually • often • sometimes • rarely • never

1. Chastota zarflari nima?

Chastota zarflari harakat yoki holat qanday tez-tez sodir bo'lishini bildiradi.

Ingliz tilida ular ko'pincha foiz bilan ifodalanadi:

always 100%	usually 80%	often 60%	sometimes 40%	rarely 10%	never 0%
-----------------------	-----------------------	---------------------	-------------------------	----------------------	--------------------

always → never qarab chastota kamayadi.

Ba'zida seldom (kamdan-kam) va hardly ever (deyarli hech qachon) ham ishlatiladi.

sometimes ni gap boshiga ham qo'yish mumkin: Sometimes I walk to school.

2. Frequency scale

Eslatma: sometimes — ba'zan (40%), rarely — kamdan-kam (10%), never — hech qachon (0%).

3. Gapdagi o'rni (Word order)

1 • Asosiy felldan OLDIN

She always drinks tea in the morning.

U har doim ertalab choy ichadi. (drinks — asosiy felldan oldin)

2 • "to be" (am / is / are) felldan KEYIN

He is often late for school.

U tez-tez maktabga kech qoladi. (is — felldan keyin)

3 • Yordamchi felldan KEYIN, asosiy felldan OLDIN

I have never been to Paris.

Men hech qachon Parijda bo'lmagandim. (have — yordamchi, been — asosiy fel)

4. Savol va inkor gaplar

Savol va inkor gaplarda do not / does not yordamchisidan KEYIN keladi:

Gap turi	Formula	Misol
Savol	Do/Does + subj + adverb + V?	Do you often play football?
Inkor	subj + don't/doesn't + adverb + V	She doesn't usually watch TV.
"to be" savol	Am/Is/Are + subj + adverb?	Is he always so busy?
How often?	How often + do/does + subj + V?	How often do you read books?

NEVER bilan do/does ishlatilmaydi — never o'zi allaqachon inkor ma'nosini beradi: I never eat fast food. ✓
